# FOOTWEAR TECHNOLOGIES

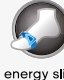

## CUSHIONING

adidas® Golf comfort technologies are developed to cradle and support your feet, soak up shock, and help reduce fatigue caused by long hours of walking.

|   |   |
|---|---|
|    | Energy-returning boost™ midsole keeps every step and swing charged with an endless supply of light, fast energy.  |
|    | Power-transferring midsole enhances walking comfort and swing stability.  |
|    | A visco-elastic PU foam engineered to evenly distribute weight and pressure while providing optimal cushioning and long-lasting comfort.                              |
|    | Super-light EVA Foam provides long-lasting cushioning and a more personalised fit for ultimate comfort.   |
|    | A super light and soft PU foam engineered to form to the exact contours of the foot for a customised fit and feel.  |
|    | A visco-elastic PU foam geometrically placed in collar area for customized fit and long-lasting comfort.  |
|   | A full-length heel-to-toe zone that incorporates firmer and more aggressive traction elements where force is applied during the swing to increase grip and stability. |
|  | An extremely durable, non-marking rubber outsole that offers the optimal balance of abrasion-resistance, traction and flexibility.                                    |
|  | Revolutionary outsole construction minimizes use of material while providing deeper flex grooves for increased flexibility and traction.                              |

## UPPER TECHNOLOGY

adidas Golf upper technologies are designed specifically to get the most out of a golfer's performance without sacrificing stability, fit or comfort.

|   |  |
|---|--|
|    | Rubber upper support element designed to guide energy transfer and prevent power leaks.  |
|    | Lacing option that provides a custom glove-like fit that can be adjusted on the fly for increased convenience and performance.<br><small>*BOA® is a registered trademark of BOA Technology, Inc.</small> |
|    | Advanced upper components that surround and bolster the foot in strategic locations while providing unsurpassed stability in the midfoot.  |
|    | Delivers 100% waterproof protection from the elements. The first layer wicks inside moisture to the shoe's surface, while the second layer surrounds the foot with a waterproof membrane.                |
|    | Designed to repel water and debris to keep the foot comfortable and dry.   |
|    | A proprietary technology that provides 360-degree ventilation to keep the foot cool, dry and comfortable.  |
|   | Designed specifically for golf, this advanced stretchable yarn is woven together to optimize stability, breathability, and ultimate comfort.   |
|  | A lightweight arch support that provides greater torsional flexibility allowing the forefoot and rearfoot to move independently for better ground surface adaptation and stability during the swing.     |

WATERPROOF WARRANTY

**ONE YEAR WATERPROOF WARRANTY:** All adidas Golf footwear featuring climaproof® technology delivers 100% waterproof protection backed by a one year waterproof warranty.

# OUTSOLE TECHNOLOGY

adidas® Golf outsole technologies are specifically engineered to promote optimal flexibility, grip, versatility and performance.

Revolutionary hybrid cleat system featuring multiple direct-inject PU cleats that provide dynamic flex and work together to deliver the optimal combination of grip and versatility. \*gripmore® is a registered trademark of Asia Summit Innovation Corporation.

Advanced low-profile cleat offers greater surface area contact, enhanced cushioning, improved green friendliness, and tour-proven traction. Stealth (and Stealth Talon) cleat is a trademark of Softspikes.

Strategically-placed in the midfoot, this revolutionary central traction element provides extraordinary grip and enhanced stability.

Low-profile outsole technology brings you even closer to the ground for improved stability, balance, footwork, power transfer and overall performance.

Revolutionary outsole construction minimises use of material while providing deeper flex grooves for increased flexibility and traction.

A full-length heel-to-toe zone that incorporates firmer and more aggressive traction elements where force is applied during the swing to increase grip and stability.

Ultra responsive energy return PeBAX outsole which is the **LIGHTEST**, **LOWEST** and **THINNEST** outsole adidas has ever created for golf.

An advanced cleat system that combine slow-profile, anti-clogging cleat design and thinner outsole receptacle.

An extremely durable, non-marking rubber outsole that offers the optimal balance of abrasion-resistance, traction and flexibility.

Exclusive 1-piece TPU forefoot platform designed to deliver unrivalled power and stability.

Secondary traction elements strategically shaped and placed to provide maximum grip and prevent slippage on all types of ground surfaces.

MEN'S **POWER**

Features **NEW L6 BOA® CLOSURE SYSTEM** conveniently located on top centre tongue for more customisable micro adjustability

**BOOST™** midsole cushioning for walking comfort and energy return

New generation of adidas® branding and **SHOE CONSTRUCTION** powered by scientific and biomechanical research and testing
